Editor (e.g. J.-P. Migne)

Work Title (e.g. Electra)

Publication Title (e.g. *Patrologiae cursus completus*)

Series (e.g. Corpus Medicorum Graecorum)

Publication Date (e.g. 1987)

A minimum of three characters must be entered in the search box.

You can select your search setting in your preferences (My Account Page).

Canon Searches can be limited by the following fields:

- Date (century of an author's life or floruit)
  - Generic Epithet (kind of literary activity the author engaged in)
  - Geographic Epithet (place of birth or literary activity)
  - Non-Standard Gen. Epithet (usually indicates author's professional occupation or other identification)
  - Work Classification (genre) used for work collections
  - Transmission Medium (codex, papyrus or inscription)
- Up to five items may be selected per category.

**Tip:** Epithets are assigned to authors. Classification applies to works. Thus, a search for Rhet. under Generic Epithet will search for authors marked as rhetoricians, a search for Rhet. under Work Classification will return rhetorical works. For more information about the TLG Canon definitions and work classifications, see the [TLG Canon Tags and Categories](#) document.
